INDEPENDENT DESIGNER & DEVELOPER

Let’s talk about your business.

Hi, I’m Jonáš. I design and build websites for businesses, helping them show what they do and reach new customers.

01 / WHAT I DO

How can I help?

02

I can take care of your whole website, from the page layouts to launch. If you already have one, we can look at what isn’t working.

01

Content and page layouts

We’ll work out what your website needs. I’ll design each page to make it easy for visitors to find what they’re looking for.

02

Design

I’ll design how your site looks on desktop and mobile, using your copy, photos and visual identity if you have one.

03

The finished website

I’ll build your website from the approved design and get it ready to launch. You’ll be able to update the content yourself — I’ll show you how.

YOU DON’T NEED TO KNOW HOW WEBSITES WORK. THAT’S WHAT I’M HERE FOR. :-)

02 / WORKING TOGETHER

How does it work? 03

We’ll stay in touch throughout the project. I’ll share designs for your feedback so we can make changes before I start building.

01

We’ll talk about your goals

Tell me a little about your business and what you need your website to do. I’ll then send you a price and suggest a timeline.

02

I’ll prepare a design

I’ll show you how I’d put the pages together and what they could look like. We’ll go through the design and I’ll make any changes needed.

03

I’ll build your website

Once you’re happy with the design, I’ll start building. You’ll get a link so you can take a look and try it out.

04

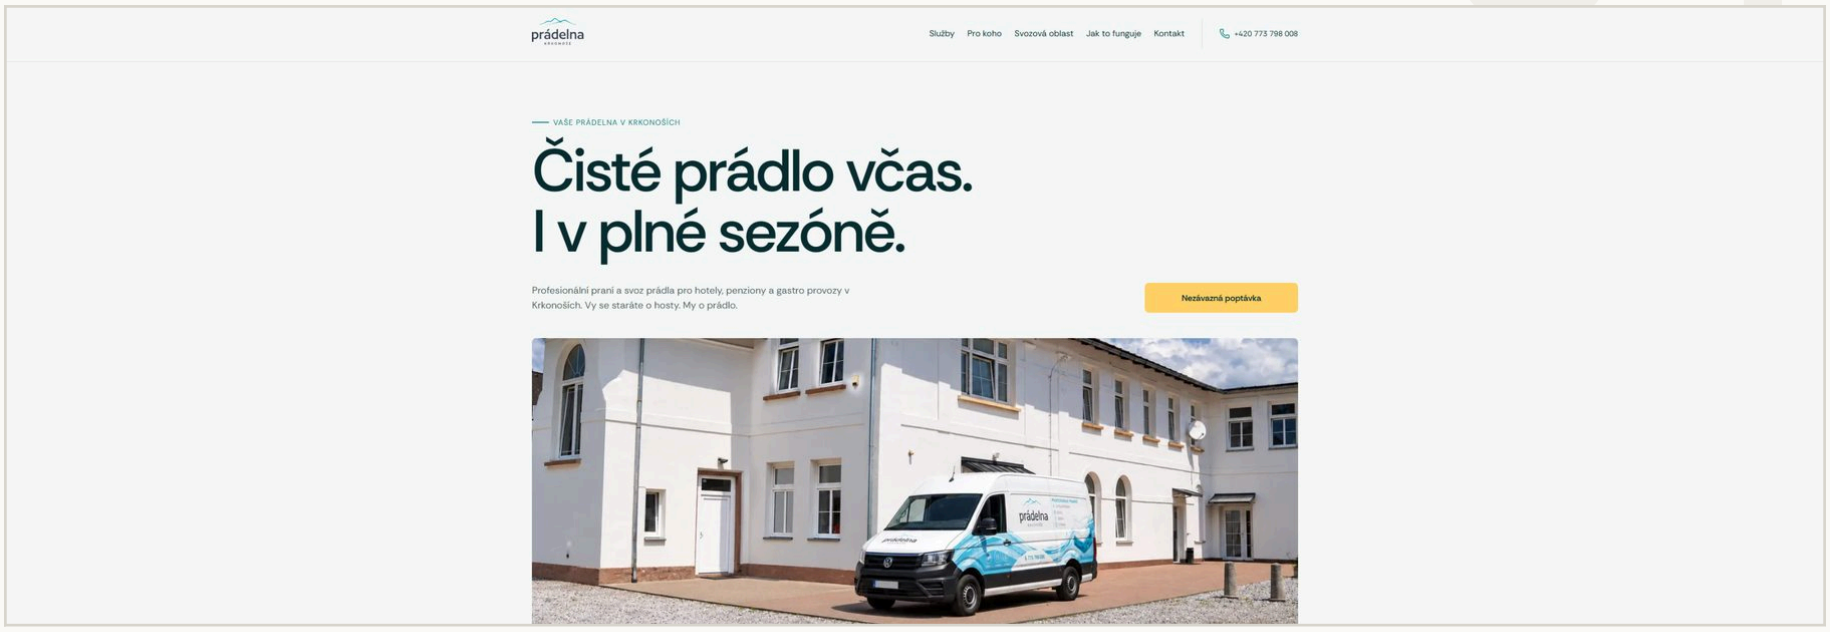

We’ll launch it

Before launch, we’ll check the site on mobile and desktop. Then I’ll show you how to update the content and we can discuss any ongoing support.

03 / MY WORK

Selected work

04

Prádelna Krkonoše — laundry service website

The client needed a visual identity and a simple new website that makes it easy for visitors to get in touch.

Starobrněnský šenk — a local pub in Brno

The client needed a new website they could easily update themselves, including a clear, easy-to-read weekly menu.

04 / GET IN TOUCH

Need a new website?

Tell me what you have in mind. You don’t need to have it all figured out — we can talk it through and see how I can help.

01

I’ll read your questionnaire

I’ll look over what you’ve sent through my website, get back to you and arrange a time for a call.

02

We’ll talk about your business

On the call, we’ll discuss your business, what you need and where you want to go. I’ll share my thoughts and ideas on what could work.

03

I’ll walk you through my proposal

On our next call, I’ll present a proposal with the price and timeline. You can take your time reviewing it before deciding whether to go ahead.
